

Health Coverage Reference

Coverage rules for HEALTH claims — Starlight Insurance

CLAIMIQ | COVERAGE AGENT REFERENCE

TYPE: HEALTH

Document scope

Claim type	HEALTH
Applies to scenarios	Scenario 1 (ACL reconstruction) · Scenario 3 (STEMI cardiac emergency)
Insurer / product	Starlight Insurance — Health Insurance Policy
Sample policies	ABC234567, HEA567890
Purpose	Rules the Coverage Agent checks a health claim against to decide covered / capped / not-covered.

1. Sum insured & sub-limits

Benefit	Limit	Basis
Sum insured (per policy year)	Rs 10,00,000	Aggregate cap
Room rent	Rs 5,000 / day	Sub-limit; excess pro-rated
Day-care procedures	Within sum insured	Covered
Post-hospitalisation	30 days	Covered
ICU / critical care	Within sum insured	Covered
Deductible	Nil (unless policy-specific)	Applied before payout

Room-rent rule: where the billed room rent exceeds the sub-limit, associated variable charges (nursing, doctor visits) are proportionately reduced in the same ratio before payout.

2. Covered items (inclusions)

- Hospitalisation for all illnesses and injuries (min. 24-hour admission).
- Surgical procedures of all types, including arthroscopic and cardiac interventions.
- Day-care procedures not requiring 24-hour stay.
- Diagnostic tests, MRI / CT scans and lab work related to the admission.
- Implants and surgical consumables (e.g. ACL graft kit, coronary stents).
- Emergency and ICU / cardiac-care-unit admissions.
- Post-hospitalisation care up to 30 days from discharge.
- Cashless treatment at network hospitals; reimbursement at non-network hospitals.

3. Exclusions (not covered)

- Pre-existing conditions during the first 12 months from policy inception.
- Adventure / hazardous sports injuries.
- Self-inflicted injuries.
- Any claim arising from alcohol or drug use.

Coverage rules for HEALTH claims — Starlight Insurance

CLAIMIQ | COVERAGE AGENT REFERENCE

TYPE: HEALTH

Scope note — **ordinary recreational sport is not an “adventure sport”**. A cricket-field injury (Scenario 1) is a covered accidental injury, not an excluded adventure-sport injury.

4. Waiting periods

Waiting period	Duration	Notes
General waiting period	30 days from inception	Waived for covered accidental injuries
Pre-existing conditions	12 months from inception	No exclusion thereafter

5. Coverage decision logic

Condition evaluated	Coverage decision
Policy ACTIVE on incident date, hospitalisation for a covered illness/injury, no exclusion applies, waiting period satisfied	COVERED — up to sum insured
Room rent billed above Rs 5,000/day	COVERED with proportionate deduction
Life-threatening emergency (e.g. STEMI, chest pain, ICU, ventilator keywords)	COVERED — flag for immediate cashless authorisation
Cause maps to an exclusion (adventure sport, self-inflicted, intoxication) or waiting period unmet	NOT COVERED
Mandatory documents missing / policy status unverifiable	NEEDS REVIEW — request documents

Emergency handling: cardiac / critical keywords trigger the RED triage path and a request for immediate authorisation; coverage confirmation must not block emergency treatment.
